What to do in case of an emergency

Try to stay calm to help your child

 <p>Ingestion</p>	 <p>Eye or skin splashes</p>	 <p>Medical help</p>
 <p>Get medical help</p>	 <p>Rinse cautiously with water for several minutes</p>	<p>The doctor may need the following information</p> <ul style="list-style-type: none"> • When did this happen? • What are the symptoms? • What first-aid measures did you perform? • What is the age and/or weight of the child? • Does the child have known allergies? • How much has been swallowed or splashed into the eye or onto the skin? If the entire capsule is gone, it is probably about 25-30 milliliters. • What is the brand name of the product? • Have the original product packaging or label at hand.
 <p>If the child is not vomiting, do not induce this</p>	 <p>Get medical help</p>
